with

- (2) The **Share Classes described in Appendix II of AMUNDI S&P 500 ESG UCITS ETF**, a sub-fund of Amundi ETF ICAV (the "**Receiving UCITS**"), an *Irish UCITS collective asset-management vehicle* established as an umbrella fund with segregated liability between its sub-funds and registered under the Irish Collective Asset management Vehicles Act 2015 having its registered office at One George's Quay Plaza, George's Quay, Dublin 2, Ireland, registered under the laws of Ireland with number C461194 (the "**Receiving Sub-Fund**");

A. Comparison between the Original Sub-Fund and the Receiving Sub-Fund and Impact on Shareholders

The Original Sub-Fund and the Receiving Sub-Fund both are compartments of undertakings for collective investment in transferable securities (UCITS) of Amundi. Although they are not domiciled in the same European jurisdiction and, therefore, are not supervised by the same regulatory authority, the Original Sub-Fund and the Receiving Sub-Fund both are subject to EU harmonized UCITS legislation and offer similar investors protection. Also, the Receiving UCITS and the Original UCITS both exist under a form of public limited company qualifying as an investment company with variable capital and generally offer similar shareholders rights to their respective shareholders.

The Receiving Sub-Fund has been set-up for the purposes of the Consolidation and, to that effect, replicates, subject to some adjustments, the Original UCITS. As further detailed in Appendix I, the Entities share similar key features, including the tracked index, management process, target asset class and geographical exposures, but differ in some respect notably in terms of certain service providers. The Entities seek to provide exposure to an equity index based on the S&P 500 ESG+ Index (the “**Index**”) which is a broad-based, market-cap weighted index that measures the performance of securities meeting sustainability criteria, while maintaining similar overall industry group weight as the S&P 500 (the “**Parent Index**”). The S&P500 Index is an equity index representative of the leading securities traded in the USA.

It should also be noted that the Receiving Sub-Fund has adopted the International Central Securities Depository (“**ICSD**”) settlement structure for the settlement of trading in its shares. Under the ICSD settlement structure, the aggregate holdings of all investors will be evidenced by a global share certificate and the sole registered holder of all shares in the Receiving Sub-Fund will be a nominee of the common depository. Under the ICSD settlement structure, investors who are not participants in the ICSD will need to use a broker, nominee, custodian bank or other intermediary which is a participant in the ICSD settlement structure to trade and settle shares. The chain of beneficial ownership in the ICSD settlement structure may therefore be similar to existing nominee arrangements under the settlement model adopted by the Original Sub-Fund.

This Consolidation would result in better economies of scale in the long term and greater levels of operational efficiency, both of which should benefit to shareholders of the Transferred ETF Share Classes on the longer term.

Appendix I to this notice provides additional information on the key similarities and differences between the Original Sub-Fund and the Receiving Sub-Fund. Shareholders are also invited to carefully read the description of the Receiving Sub-Fund in its prospectus and relevant key information document (KID), which will be available on the following website: www.amundiETF.com.

The Consolidation of the Original Sub-Fund into the Receiving Sub-Fund may have tax consequences for certain shareholders. Shareholders should consult their professional advisers about the consequences of this Consolidation on their individual tax position.

B. Terms and Conditions of the Consolidation

On the Consolidation Effective Date, the assets and liabilities allocated to the Transferred ETF Share Classes will be transferred to the Receiving Sub-Fund and shareholders of the Original Sub-Fund who have not requested the redemption of their **Transferred ETF Share Classes** in accordance with this paragraph B. will automatically receive registered shares of the relevant share classes in the Receiving Sub-Fund. As from that date, such shareholders will acquire rights as shareholders of the Receiving Sub-Fund and will thus participate in any increase or decrease in the net asset value of the Receiving Sub-Fund.

The Original UCITS will entrust an authorised auditor to validate the criteria adopted for the valuation of the assets and of the liabilities of the Original Sub-Fund, the Receiving Sub-Fund and the Transferred ETF Share Classes as of the date for calculating the exchange ratio. The appointed auditor is PricewaterhouseCoopers, Société coopérative. A copy of the respective report of the authorised auditor will be made available upon request and free of charge to the shareholders of the Transferred Share Classes and to the Commission de Surveillance du Secteur Financier (“CSSF”).

As the proposed operation is a share class consolidation, the appointed auditor shall also confirm that shareholders remaining in the Original Sub-Fund will not suffer any detrimental effect as a result of the contribution of the Transferred ETF Share Classes in the Receiving Sub-Fund and that the allocation of the assets and liabilities allocated to the Transferred ETF Share Classes is fair.

The Consolidation exchange ratio will be calculated on the Consolidation Effective Date by dividing the net asset value of the relevant share class of the Transferred ETF Share Classes dated as at the Last Valuation Date (as defined in Appendix III) by the net asset value of the shares of the corresponding share class of the Receiving Sub-Fund as at the same date.

The Receiving Sub-Fund share classes will be specifically activated to effect the exchange with the corresponding share classes of the Transferred ETF Share classes. For each Transferred ETF Share classes of the relevant class exchanged, shareholders will receive a share of the relevant share class of the Receiving Sub-Fund.

Any accrued income in the Transferred ETF Share Classes will be included in the final net asset value of the Transferred ETF Share Classes and accounted for in the net asset value of the relevant share class of the Receiving Sub-Fund after the Consolidation Effective Date.

Appendix II to this notice provides a detailed comparison of the features of the Transferred ETF Share Classes and the corresponding share classes of the Receiving Sub-Fund, which shareholders are invited to read carefully.

The cost of the Consolidation will be fully supported by the management company of the Receiving Sub-Fund.

In order to optimise the operational implementation of the Consolidation, no subscription, conversion and/or redemption orders relating to shares of the Original Sub-Fund on the primary market will be accepted after the “**Cut-Off Point**” (as such term is defined in Appendix III). Orders received on the primary market after the Cut-Off Point will be rejected.

The Receiving Sub-Fund is to be launched by effect of the Consolidation. No shares of the Receiving Sub-Fund will be issued before the Consolidation Effective Date. Any subscription, conversion or redemption request on the primary market received by the Receiving UCITS, the Receiving UCITS' management company, the Distribution, Paying or Information Agent by the applicable cut-off time on the Consolidation Effective Date will be processed on the the first following day that is a Business Day.

Shareholders of the Transferred ETF Share Classes who do not agree with the terms and conditions of this Consolidation have the right to redeem their shares at any time free of charges (excluding redemption fees charged by the Original Sub-Fund to cover divestment fees and except for the fees acquired by the Original Sub-Fund to prevent dilution of shareholders investment) from the date of this notice until the “**Cut-Off Point**” as set out in Appendix III.

Nevertheless, for UCITS ETF share classes, placing an order on the secondary market will trigger costs over which the management company of the Original Sub-Fund has no influence. Please note that shares that are purchased on the secondary market cannot generally be sold back directly to the Original Sub-Fund. As a result, investors operating on the secondary market may incur intermediary and/or brokerage and/or transaction fees on their transactions, over which the management company of the Original Sub-Fund has no influence. These investors will also trade at a price that reflects the existence of a bid-ask spread. Such investors are invited to contact their usual broker for further information on the brokerage fees that may apply to them and the bid-ask spreads they are likely to incur.

Such a redemption would be subject to the ordinary rules of taxation applicable to capital gains on the sale of transferable securities.

The Consolidation will be binding on all the shareholders of the Transferred ETF Share Classes who have not exercised their right to request the redemption of their shares within the timeframe set out above.
